

Dear Editor,

On behalf of my co-authors, I am submitting our manuscript with the name of “**Global Tracking of Transformation Products of Environmental Contaminants by  $^2\text{H}$ -labeled Stable Isotope-Assisted Metabolomics**” for possible publication in *Analytical Chemistry*. This MS had been reviewed by *Environmental Science & Technology* with ID es-2021-079298, and then reviewed by *Analytical Chemistry* with ID ac-2022-00500v.R1.

Many thanks for the consideration of our study. As responses listed in the file, we have addressed all the comments from editor and two reviewers. I hope the revised MS follows the requirements of *Analytical Chemistry*.

We certify that we have participated sufficiently in the work to take public responsibility for the appropriateness of the experimental design and method, and the collection, analysis, and interpretation of the data. Until now, this manuscript has not been published in whole or in part. Additionally, before acceptance, we may submit this MS to preprint platform such as, ChemRxiv from ACS or In review from Nature Group.

The authors declare no competing financial interest, and details deleted in the submission are attached here.

Thank you very much for your attention and consideration. Looking forward to your decision, with kind personal regards.

Yours Sincerely,

Prof. Ke Chen
